CSR Safety Training

Our CSR Health and Safety training programme is designed for individuals who are required to carry out work or frequently visit construction sites.

Learn more about our CSR Health and Safety Training Course.

Here are the key advantages of our one day CSR Health and Safety Training programme:

Reduced Incidents: Mitigate workplace accidents and injuries through thorough safety training, leading to lower absenteeism and higher productivity.

Legal Compliance: Stay up-to-date with evolving safety regulations, ensuring your company avoids costly fines and legal liabilities.

Employee Well-being: Demonstrate your concern for employee health and safety, fostering a positive work environment and improved job satisfaction.

Enhanced Reputation: Showcase your commitment to social responsibility, attracting socially conscious customers and partners while strengthening brand trust.

Community Engagement: Extend your impact beyond the workplace by engaging in safety initiatives that benefit the local community and environment.

Talent Attraction and Retention: Attract top-tier talent and retain skilled employees by highlighting your dedication to their safety and professional development.

Operational Efficiency: Reduced accidents lead to less downtime and insurance claims, contributing to streamlined operations and improved profitability.

Risk Management: Proactively identify and address potential safety risks, minimising disruptions to business operations and protecting your assets.

Innovation Culture: Foster a culture of continuous improvement, encouraging employees to suggest and implement safety innovations that boost efficiency.

Long-Term Sustainability: Implementing CSR Safety training lays the foundation for a sustainable future, aligning your company with global sustainability goals.

By the end of the course our candidates will be aware of the following:

Health & Safety Legislation, Accident reporting, emergency procedures, fire prevention & control, accident prevention, manual handling, working at heights, PPE, working with hazardous substances, noise and vibration, working with electricity, overhead and underground services, safe use of handheld equipment and site vehicles, excavations and confined spaces.

Choose Woodhill Training for your CSR Health and Safety Training and equip your team with the skills and knowledge needed to ensure a truly safe working environment.
